

FINANCIAL AID & SCHOLARSHIPS

There is a Financial Aid Plan for Everyone

One of the biggest questions we hear at New England Tech is: How can I pay for college? That's why our Financial Aid Office is dedicated to providing the answer for every student. Simply put, there is a financial aid plan for everyone. We help guide you through necessary steps to take full advantage of the resources available from various federal, state, and private programs.

We can assist you with completing your FAFSA application, and help you understand your options to pay for your education, whether that means Pell grants, scholarships, private student loans, and/or federal programs.

Those seeking student financial aid each have a unique set of circumstances. That's why meeting personally with a Financial Aid Officer will help us understand what you need, and gives you peace of mind that when it comes to answering that question about paying for college, you have options.
