TUITION AND FEES

Tuition

Full-Time Students

Normally, for purposes of tuition assessment, NEIT defines a full-time course load as 12-19 credits per term. The tuition for these terms will remain at the full-time tuition rate. Student's taking less than 12 course credits in a term or more than 19 course credits will be assessed for tuition based on a per credit hour rate. The per credit hour rate will be $700.00 per credit hour for full priced programs and $500.00 per credit hour for reduced priced programs. All term fees will also be applicable (refer to fees below). Please contact the Student Accounts Office for further information on tuition.

Non-Matriculated Status

Students who have not enrolled in a program of study but wish to take individual courses will pay the cost-per-credit rate in effect at the time they enroll for the course.

FEES

Registration and Administrative Fees
